

CAREER CAMP!

Van Buren Tech, June 19-25, 2019

Wednesday, Thursday, Friday, Monday & Tuesday

(Dates subject to change due to snow days)

\$15 per student. Registration fee refunded to student upon perfect attendance during camp week. Open to students who have completed grades 6, 7, or 8.

Camp runs from 9:30 am – 2:30 pm. Transportation is provided to local school districts. To enroll, see your school counselor or download the application at www.vbisd.org/techcenter or contact Tina Berchiatti at 269.539.5344

Babysitter Boot Camp

Want to be the babysitter that every parent calls? In this camp you will learn what you need to know and what every parent wants in a great babysitter! Learn about general care, nutrition, projects and activities for children, and health and safety. You will even get some hands-on experience working with children. And, if you have perfect attendance for the week you will earn your certificate.

Fire Camp

Break down a door! Crawl through the tubes! Use a real fire hose! Tie those ropes! See if you have what it takes to be a real firefighter. This challenging camp is taught and led by real firefighters, using real firefighting equipment. Safety is our business, and business is fun!

#MyBusiness

Create your own business and start earning money now! Develop a business name and create a company logo. Design your own business cards and advertising materials. Hear about success stories of other business owners and learn creative ways to advertise and market your own business, including starring in your own commercial!

Future S.T.E.M. Engineers

S.T.E.M. (Science Technology, Engineering and Manufacturing) is the future! Design and manufacture an underwater robot, water rockets, fountains and much more!

Rescue 911!

Want answers to all those medical questions you were wondering about! In this fast-paced, hands-on camp, spend time in real ambulances, learn basic CPR and First aid, make emergency kits, and much more! Our motto is "Improvise, adapt, and overcome!" Join us for a fun-filled, but totally mental medical marathon!

Creation Station

Are you creative? Do you dream of ways to make your world more interesting? Become a creator in the graphic art and printing Creation Station and bring your ideas to life using professional imaging software applications (Adobe Creative Suite) to make art and designs. Apply your work to vinyl, cloth and paper while you explore the fields of art, graphic design, and the print industry.

The Internet of Things

The Internet of Things camp will allow students to play with all types of computer hardware and software including computers, Raspberry Pi, Arduino, robots, wireless access points, Linux, android, and multiple programming languages including python and C. We will build, program and test multiple projects for fun!

Need for Speed

Are you a Nascar fan? Enjoy working on cars? In Need for Speed, you will learn to change oil, rotate tires, and much more!

Salon Extravaganza!

Do you imagine working in a real salon? Would you like to learn some tips and tricks used by the pros? If so, then this is the camp for you! Learn hand, nail and hair techniques used by professionals in a real salon setting! Join us for a hair-raising experience!

Fun with Food

A career camp that makes eating healthy food fun. A place where playing with your food isn't forbidden!

CSI: Crime Scene Investigation

Ever wonder about police work? Would you like to investigate a crime scene? Dust for prints? Take footwear impressions? In this camp, you will even talk with real police officers!

Inventors & Designers

Are you thinking of going into Engineering or Architecture? Did you ever like to play with Legos or Kinex kits? Do you like to doodle in class? Do you like to take things apart just to see how they work? If so, then this is the camp for you! Designer's camp helps you explore how these past times can be turned into a career using technology such as CAD, 3D printing and modeling techniques. Come and join the fun!

Woodworking Wonders

Have you ever wondered about the actual science behind wood? Learn about the different species of wood and how they act in different environments through your own personal woodworking project!

Where the Wild Things Are!

Adventures in plant science, animal science and natural resources!
