Agriculture Animal Adventures

Do you love animals and want to know how to care for them? In Agriculture Animal Adventures you will learn how different animals are put together from their DNA to their bones to their physical traits. You will also learn how to handle and feed animals like rabbits, cows, and pigs while keeping yourself healthy and safe.

CSI: Crime Scene Investigation

Ever wonder about police work? Would you like to investigate a crime scene? Dust for prints? Take footwear impressions? In this camp, you will even talk with real police officers!

Fire Rescue 911

Break down the door! Crawl through the tubes! Use a real fire hose! Tie those ropes! Learn first aid skills and have fun using real firefighter and EMT equipment taught by real firefighters and EMTs. Get ready to sweat and don't be afraid to get wet because safety is our business and business is Fun!

Fun with Food

A career camp that makes eating healthy food fun. A place where playing with your food isn't forbidden!

Future S.T.E.M. Engineers

S.T.E.M. (Science, Technology, Engineering, and Manufacturing) is the future! Future S.T.E.M. Engineers will design and create fun projects like LED Lamps using 3D printers and laser engravers!

#MyBusiness

Create your own business and start earning money now! Develop a business name and create a company logo. Design your own business cards and advertising materials. Hear about success stories of other business owners and learn creative ways to advertise and market your own business, including starring in your own commercial!

Need for Speed

Are you a car fan? Enjoy working on cars? In Need for Speed, you will learn to change oil, rotate tires, and much more!

Robotics Engineering 2020

Do you dream of building your own robot? Robotics Engineering 2020 is for you! You will build a robot with sensors and a camera. Use wireless networking to control your robot through a maze, chase a ball and follow a line!

Woodworking Wonders

Have you ever wondered about the actual science behind wood? Learn about the different species of wood and how they act in different environments through your own personal woodworking project!
