DISCLAIMER: This screening tool is subject to change based on the latest information on COVID-19

If you answer **YES** to any of the symptoms listed in section 1, **OR YES** to two or more of the symptoms listed in section 2, **OR** your temperature is **100.4ºF or higher**, please do not go into work. Self-isolate at home and contact your primary care physician's office for direction.

- You should isolate at home for minimum of 10 days since symptoms first appear or per guidance of your local health department.
  - If diagnosed as a probable COVID-19 or test positive, call your local health department and make them aware of your diagnosis or testing status.
- You must also have 24 hours without a fever and improvement in symptoms.

In the past 14 days, have you:

Question	Yes	No
Had close contact with an individual diagnosed with COVID-19?	☐ Yes	☐ No
International Travel?	☐ Yes	☐ No

If you answer **YES** to either of these questions, please do not go into work. Self-quarantine at home for 14 days. Contact your primary care physician's office if you have symptoms or have had close contact with an individual for evaluation. If you are given a probable diagnosis or test positive call your local health department to ensure they are aware.
